SKILLS

TECHNICAL SKILLS

Programming Languages

• JavaScript ES6+

• TypeScript

Development

• HTML5 • CSS3 • jQuery

• ReactJS • Redux • Bootstrap

• REST API

• Tailwind • Ajax • MUI

Database Management

• MongoDB

Backend Language

• Node.js • Express

Developer Tools

• Git • GitHub • Visual Studio

SOFT SKILLS

Leadership • Time Management

Problem-Solving • Adaptability

Communication

EDUCATION

Dr. APJ Abdul Kalam

Technical University

Bachelor in Technology

Sept. 2020 – Sept. 2023

B.T.E.U.P.

Diploma

August 2016 - July 2018

COURSE WORK

UI Web Development Course

LANGUAGE'S

KNOWN

Hindi, English, Sanskrit

HOBBIES

Reading Books, Exercise, Cooking,
Playing Cricket

OBJECTIVE

Motivated graduate seeking an entry-level **React Developer** position to apply technical skills and knowledge from education and projects. Committed to continuous learning and professional growth in a dynamic, innovative company.

PROJECTS

• BRANDY'S FAST FOOD

I spearheaded the development of an innovative food commerce website using cutting-edge technologies. I have used React JS (v18.3) as frontend and Tailwind CSS for interactive and responsive UI. Used MongoDB as database also used Node JS and Express JS for implementing Backend API's. Also integrated Stripe for Payment gateway which is used in Test Mode. This website's frontend is hosted on Vercel.com and backend is hosted on Render.com. [DEMO LINK.](#)

• BRANDY'S SHOP

I spearheaded the development of an interactive E-commerce website using some top-notch technologies. For frontend I have used React JS (v18.3) and for database & Authentication Services I have used Google Firebase. Also used Alice Carousel for image slideshow which looks good. I have implemented Razor Pay for payment gateway in Test Mode. This website is hosted on Vercel.com. [DEMO LINK.](#)

• BRANDY'S BOOKS

Developed a dynamic and visually appealing Book website using React JS (v18.3) as frontend and showcasing a seamless blend of design and functionality. Implemented slides of images using Swiper JS, there is a section for every user to Edit, Update, Add and delete feature. For the backend portion there is Node JS and Express JS is used. It means this website is providing a CRUD operation to every user of it. This websites frontend is hosted on Google Firebase and Authentication is also implemented through Firebase. And Backend is hosted on Render.com. [DEMO LINK](#)

CERTIFICATION

• TYPESCRIPT, Udemy – March 2024

• Gained proficiency in Typescript including all features of Typescript and also using in Projects.

• JAVASCRIPT, Udemy – January 2024

• Gained proficiency in Javascript including all features of Javascript and also using in Projects since January 2024.

• REACT, Udemy – March 2024

• Gained proficiency in React including all features of React and also using in Projects since march 2024.
